EDUCATION

LA Grandee International College   **2021 — 2025**
Bachelor of Computer Application (BCA)   *Pokhara, Nepal*

Sagarmatha Higher Secondary College   **2019 — 2021**
Management - CGPA: 3.12   *Pokhara, Nepal*

Pokhara Academy   **2009 — 2019**
Secondary Education Examination (SEE) - CGPA: 3.7   *Pokhara, Nepal*

EXPERIENCE

Lexflow   **July 2025 — Oct 2025**
Full Stack Developer Intern   *Pokhara, Nepal*

- Contributed to **Lexflow** (lexflow.fr), a SaaS platform enabling businesses to automate client onboarding, document workflows, and company creation with multi-language support.
- Developed dynamic dashboards and user management systems using **SvelteKit**, **Flask**, and automation tools like **n8n**.
- Collaborated on frontend modules for company sites (e.g., koulier.lexflow.fr) built with **React**, leveraging **Zustand** and **TanStack Query** for state and data management.

BrandBuilder   **April 2025 — July 2025**
Full Stack Developer Intern   *Pokhara, Nepal*

- Developed cross-platform mobile applications using **React Native**, **Express.js**, and **TypeScript**.

PROJECTS

Banau — Multi-Tenant SaaS Platform — Tanstack Start, TypeScript, NestJS, Prisma, PostgreSQL   **In Progress**
- ✳ Building a multi-tenant SaaS platform with subdomain-based architecture for isolated tenant environments.
- ✳ Frontend developed with **Tanstack Start** and TypeScript using scalable architecture patterns.
- ✳ Backend implemented with **NestJS**, **Prisma ORM**, and PostgreSQL for secure tenant data management.
- ✳ Implementing authentication, role-based access control, and tenant provisioning system.
- ✳ GitHub: github.com/KrishnaGrg1/banau

Personal Blog Platform — Next.js, TypeScript, Prisma ORM, BetterAuth, Cloudinary   **2026**
- ✳ Built a full-featured blog platform for publishing technical articles and project updates.
- ✳ Developed with **Next.js** and **TypeScript** for SSR, SEO optimization, and scalable architecture.
- ✳ Used **Prisma ORM** with a relational database for structured content management and optimized queries.
- ✳ Implemented authentication and secure user sessions using **BetterAuth**.
- ✳ Integrated **Cloudinary** for image and media uploads with optimized storage and delivery.
- ✳ GitHub: github.com/KrishnaGrg1/blog
- ✳ Live: blog-ecru-seven.vercel.app

LevelUp — Gamified Productivity Platform — Next.js, TypeScript, Express.js, Prisma, PostgreSQL   **2025**
- ✳ Developing a gamified productivity web app that converts daily habits into AI-generated quests with progress tracking.
- ✳ Backend implemented with **Express.js**, **TypeScript**, and **Prisma ORM**.
- ✳ Frontend built with **Next.js**, using **Zustand** and **TanStack Query** for efficient state management.
- ✳ Integrated AI to generate personalized quests and achievement feedback.
- ✳ GitHub: github.com/KrishnaGrg1/LevelUp
- ✳ Live: melevelup.me

COURSEWORK

- Operating Systems
- Computer Networks
- Database Management Systems
- Object-Oriented Programming
- Web Development
- Software Engineering

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React, Next.js, TanStack Start, React Native, SvelteKit, Tailwind CSS
Backend & Database: Node.js, Express.js, NestJS, Prisma ORM, PostgreSQL, MongoDB
Authentication & Services: BetterAuth, JWT, REST APIs
Tools: Git, GitHub, VS Code, Postman, MongoDB Compass

CERTIFICATIONS

NodeJS with Express & MongoDB - BrandBuilder (2024)
